

FYDP-II Mid Defence Implementation Evaluation Rubrics (40 Marks)

S. No.	Criteria	Mapping	Not Addressed (0)	Marginal (1)	Adequate (2)	Good (3)	Very Good (4)	Excellent (5)
1	Major modules completion status; the required 75% implementation according to proposed solution (10 Marks)	PLO 3 Design / Development of Solutions	no implementation or the student is absent.	less than 30% implementation is according to proposed solution	30-50% implementation is according to proposed solution	50%-60% implementation is according to proposed solution	60%-70% implementation is according to proposed solution	75% implementation is according to proposed solution; excellent progress.
2	Is implementation according to the proposed solution (4 Marks)	PLO 11 Project Management	Student is absent	Idea and scope differ significantly from the proposed solution	major changes without any justification; scope of the project significantly reduced	Some changes without any justification but scope of the project remains almost the same	in between	Fully compliant with the proposed solution or minor changes with appropriate justification.
3	Look and Feel of User interfaces. (Visual objects and elements, visibility and flows of tasks etc) (5 Marks)	PLO 3 Design / Development of Solutions	UI not designed, or the student is absent	Look and feel of user interface is poor according to HCI standards	Look and feel of user interface is barely satisfactory according to HCI standards; requires major improvements	Look and feel of user interface is good according to HCI standards; requires some improvements	in between	Look and feel of user interface is excellent according to HCI standards
4	Understanding of implemented algorithms or APIs or DB schema synchronization or project related techniques like Image processing, machine learning etc (4 Marks)	PLO 3 Design / Development of Solutions	Student has no idea about the implementation, or is absent	Student has poor understanding of implementation	Student has satisfactory understanding of implementation	Student has good understanding of implementation	in between	Student has excellent understanding of implementation
5	Use of project management tools like Trello, JIRA, ASANA etc, and project development models (3 Marks)	PLO 11 Project Management	not used or the student is absent	Development model followed but has ambiguities; project management not followed	bare minimum use of project management tools and/or development models	reasonable use of tools and models; requires some improvements	in between	excellent tools and techniques used; evidence is available

6	A comprehensive list of test cases and testing plan presented: a) Functional Testing (Unit Testing, Integration Testing, System Testing) b) Non-Functional Testing (performance testing, security testing etc.) (5 Marks)	PLO 4 Investigation	not presented or the student is absent	Only a few functional/non-functional test cases have been presented without any execution plan.	Most of the functional and non-functional test cases have not been presented.	A list of functional and non-functional test cases has been presented with some shortcomings; execution plan needs improvements.	in between	A comprehensive list of all the relevant functional and non-functional test cases has been presented with clear and attainable execution plan.
7	Novelty and relevance to UN's SDGs (4 Marks)	PLO 7 Environment and Sustainability	the student is absent	An existing idea implemented without any novelty; has little to no relevance to UN's SDGs	Idea not new but contains a few novel features; limited relevance to UN's SDGs	Idea not new but contains various novel features with some commercialization potential and relevance to UN's SDGs	in between	A novel idea proposed and materialized with significant commercialization potential and relevance to UN's SDGs
8	Quality of Presentation & Demonstration (5 Marks)	PLO 10 Communication	student did not present or is absent.	No organization and preparation; could not answer any queries by examiners.	Inadequate organization and preparation; could not answer most of the queries by examiners.	Good demonstration and presentation; suitable answers provided to examiners for many of the queries.	in between	Flawless demonstration and presentation; concise and clear answers provided to examiners for all queries.
