

FYDP-I Final Defence SDS Report Evaluation Rubrics

S. No.	Criteria	Mapping	Not Addressed (0)	Marginal (1)	Adequate (2)	Good (3)	Very Good (4)	Excellent (5)
1	Selection of Architectural style (2 Marks)	PLO 3 Design / Development of Solutions	not mentioned or the student is absent	Architecture is not suitable	Architecture partially defined and represented	Suitable architectural pattern is defined and clearly represented	In between	Suitable architectural pattern is defined and clearly represented with proper justification
2	Selection of Design methodology (2 Marks)	PLO 3 Design / Development of Solutions	not mentioned or the student is absent	Not suitable without justification	Not suitable with justification	Suitable without justification	In between	Suitable with justification
3	Data representation diagram (ERD, XML schema, SON schema etc.) with description (3 Marks)	PLO 3 Design / Development of Solutions	not mentioned or the student is absent	Not suitable without justification	Not suitable with justification	Suitable without justification	In between	Suitable with justification
4	Process flow (Activity Diagram) (3 Marks)	PLO 3 Design / Development of Solutions	not included or the student is absent	Incorrect without description	Incorrect with description	Correct without description; requires improvements	In between	Correct with description
5	Design Models: the applicable models may include -Class Diagrams -Sequence Diagrams -State Transition Diagrams -Data Flow Diagrams (4 Marks)	PLO 3 Design/Develop ment of Solutions	not included or the student is absent	Incorrect without description	Incorrect with description	Correct without description; requires improvements	In between	Correct with description
6	User Interface design (2 Marks)	PLO 3 Design / Development of Solutions	not mentioned or the student is absent	Look and feel of user interface is poor according to HCI standards; design is incomplete as well.	Look and feel of user interface is satisfactory according to HCI	Look and feel of user interface is good according to HCI standards; requires improvements or some aspects missing	In between	Look and feel of user interface is excellent according to HCI standards
7	Is the SDS document well formatted and grammatically correct? (3 Marks)	PLO 10 Communication	not submitted/stud ent absent	The document is poorly formatted with many grammatical mistakes	The document is partially formatted with few grammatical	The document is reasonably well formatted with a few grammatical	In between	A complete, concise, and well-formatted report; separate captions and numbering provided for

					mistakes; no caption label and numbering provided for tables, figures, class/sequence, state transition/data flow diagrams etc.	mistakes; same caption label used for tables, figures, class/sequence, state transition/data flow diagrams etc.; requires some improvements.		all tables, figures, class/sequence, state transition/data flow diagrams etc; separate table-of-contents provided for figures, tables, class/sequence, state transition/data flow diagrams etc and for the entire document
8	Is the SDS documentation & presentation free of Plagiarism? (1 Mark)	PLO 8 Ethics	SDS document or presentation contains higher than 30% similarity, or not submitted, or the student is absent.	The SDS document and presentation contain similarity between 25-30%	The SDS document and presentation contain plagiarism between 20-25%	The SDS document and presentation contain plagiarism between 15%-20%	In between	The SDS document and presentation have a similarity score of less than 10%

FYDP-I Final Defence Implementation Evaluation Rubrics

S. No.	Criteria	Mapping	Not Addressed (0)	Marginal (1)	Adequate (2)	Good (3)	Very Good (4)	Excellent (5)
1	Major modules completion status; 30%-35% implementation according to proposed solution (7 Marks)	PLO 3 Design / Development of Solutions	no implementation or the student is absent.	10% implementation is according to proposed solution	20% implementation is according to proposed solution	25% implementation is according to proposed solution	In between	30%-35% implementation is according to proposed solution
2	Look and Feel of User interfaces. (Visual objects and elements, visibility and flows of tasks etc) (3 Marks)	PLO 3 Design / Development of Solutions	UI not designed, or the student is absent	Look and feel of user interface is poor according to HCI standards	Look and feel of user interface is barely satisfactory according to HCI standards; requires major improvements	Look and feel of user interface is good according to HCI standards; requires some improvements	In between	Look and feel of user interface is excellent according to HCI standards
3	Understanding of implemented algorithms or APIs or DB schema synchronization or Image processing technique(s) etc (4 Marks)	PLO 3 Design / Development of Solutions	Student has no idea about the implementation , or is absent	Student has poor understanding of implementation	Student has satisfactory understanding of implementation	Student has good understanding of implementation	In between	Student has excellent understanding of implementation
4	Is implementation according to the proposed solution (3 Marks)	PLO 11 Project Management	not at all, or, student is absent	10% implementation is according to proposed solution	20% implementation is according to proposed solution	25% implementation is according to proposed solution	In between	30%-35% implementation is according to proposed solution
5	Use of project management tools like Trello, JIRA, ASANA etc, and project development models (3 Marks)	PLO 11 Project Management	not used or the student is absent	Development model followed but has ambiguities; project management not followed	bare minimum use of project management tools and/or development models	reasonable use of tools and models; requires some improvements	In between	excellent tools and techniques used; evidence is available

FYDP-I Final Defence Presentation Evaluation Rubrics

S. No.	Criteria	Mapping	Not Addressed (0)	Marginal (1)	Adequate (2)	Good (3)	Very Good (4)	Excellent (5)
1	Is the student wearing proper attire & is he/she presentable? (1 Mark)	PLO 10 Communication	student is absent	Student's attire is barely acceptable	Student's attire is appropriate	Student's attire is good	In between	Student's attire is excellent
2	Is the student able to communicate effectively? (2 Marks)	PLO 10 Communication	student did communicate during presentation or is absent.	Answer at least one question correctly. Need clarification.	Answer most questions correctly. Need clarification sometimes.	Answer most questions correctly and concisely	In between	Handle difficult questions with ease and confidence. Gave illustrative explanation.
3	Is the student well prepared and organized? (2 Marks)	PLO 10 Communication	student has not contributed to the project or is absent.	Bare minimum organization and preparation. Lack of confidence and familiarity in some parts of the presentation.	Basic organization and preparation. Confident in only some parts of the presentation	Good organization and preparation. Confident in most parts of the presentation.	In between	Excellent organization and preparation. Confident and relaxed in the whole presentation
4	Quality and Organization of Presentation Slides (2 Marks)	PLO 10 Communication	slides not prepared or student is absent	Student is clueless about the content of his presentation.	Information is arranged in confused and unstructured way. Key points are not covered. The contents are hard to understand and interpret	Information articulated clearly but it is difficult to follow the presentation. All key points are covered but no use of charts, graphs, figures etc., to explain salient points.	In between	Information articulated clearly and is organized in a structured way with logical flow between parts. All key points are covered. Enhances presentation and keeps interest by effective use of charts, graphs, figures etc., to explain salient points.
5	Team coordination in terms of work division and collaboration (3 Marks)	PLO 9 Individual and Teamwork	student couldn't demonstrate any contribution to the project, or is absent	Poor team coordination and poor work division	Poor team coordination and work division is satisfactory	good team coordination and work division is satisfactory	In between	Excellent team coordination and work division
